SUMMARY

Full-Stack Developer with an MCA from Jain University, specializing in building scalable web applications using React.js, Next.js, and Node.js. Passionate about UI/UX, state management (Redux Toolkit), API integration, and performance optimization. Experienced in MongoDB, Express.js, and deploying production-ready apps on Vercel.

PROJECTS

E-Commerce Clothing Store (Forever)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Stripe, Razorpay

- Built a full-stack e-commerce platform with product browsing, filtering, and cart functionality.
- Implemented secure payment integration (Stripe, Razorpay) with both COD & online transactions.
- Developed an admin dashboard for product management & order tracking.
